

# Dana Rosamund Teagle

## Web/Software Developer

✉ [dana.r.teagle@gmail.com](mailto:dana.r.teagle@gmail.com)

📍 Toronto, Ontario

☆ she/her

## SUMMARY

- Motivated developer with 3+ years of experience creating sites and applications from conception to testing to deployment
- Expert in customer service, teamwork, and leadership, honed over 6+ years of experience managing restaurants and cafés
- Confident public speaker, skilled at explaining technical concepts, with a background running workshops and consulting with clients

## EDUCATION

### Web Development Immersive (Cohort 44)

#### Juno College of Technology

📅 08/2022 - 11/2022 📍 Remote/Toronto, ON

- Graduated with an overall grade average of 91.4% and mentored students in later cohorts over the following 6 months

## WORK EXPERIENCE

### Front-End Developer

#### Parallel 42 Systems

📅 05/2023 - Present 📍 Remote | Contract (Full-time)

- Developed front-end upgrades on enterprise applications for large clients (including Fortune 500 companies), working closely with project managers, back-end developers, and the design team throughout to ensure the apps match the designated prototype and style guide
- Participated in code reviews with senior developers, consulted on ongoing development workflows, and worked with external testing and QA teams

### Web Designer/Front-End Developer

#### Dana Teagle, Front-End Developer

📅 04/2020 - Present 📍 Remote | Freelance

- Designed websites and established social media profiles for 15+ small businesses, increasing their web traffic and online reach by as much as 60%
- Created online stores, booking systems, and email marketing campaigns for clients, ensuring their brand was consistent across platforms

### Technical Support/Social Media Manager

#### University of Western Ontario

📅 04/2023 - 07/2023 📍 Remote | Contract (Part-time)

- Created graphics and wrote web copy based on research by a professor with the Department of Education for her 5000+ social media followers
- Provided my client with consultation and technical support on the web applications and services to use to best reach her target audiences

### Consultant/Workshop Presenter

#### Trans I.D. Assistance

📅 06/2021 - 11/2022 📍 Remote | Freelance

- Presented 3 workshops for student unions and community organizations, teaching trans and non-binary people about the processes of legally changing their name, gender marker, and/or identification documents
- Assisted 7+ individuals on a pay-what-you-can basis with planning, accessing resources, and getting applications filed and approved

## SKILLS

JavaScript

TypeScript

React.js

Vue.js

Angular.js

jQuery

HTML

CSS

SCSS

Wordpress

Adobe

## PROJECTS

### Queer Walk (Pytheas)

🔗 <https://queerwalk.ca>

- Built a virtual guided walking tour of historic locations for the 2SLGBTQAI+ community in Windsor-Essex, Ontario, written in Typescript using the React library, in partnership with Windsor Hackforge and Parallel 42 Systems
- Led development from May to August 2023 and ensured the project was delivered within budget and on time for launch at Windsor-Essex Pride
- Spearheaded several significant functional upgrades to Pytheas—the open-source application that Queer Walk builds upon

### Note Taken

🔗 <https://danateagle.com/notes>

- Developed a local storage notes app, written in Typescript and SCSS, using the Angular framework. All data is saved client-side without a database, so the notes are private and persistent across sessions until the user clears their cache
- Originally built a version of this app with very basic functionality in early 2023 as practice working with Angular, and have continued to make functional and design upgrades over time

### Superhero Showdown

🔗 <https://danateagle.com/superhero>

- Created an online card game within 3 weeks between October and November 2022, written in JavaScript and CSS using the React library
- This application uses algorithms for card shuffling, and calculates game scores by comparing state variables and object values as you move through gameplay
