

# Dana Rosamund Teagle

## Front-End Developer

📞 647.914.7747

📍 Toronto, ON

@ dana.r.teagle@gmail.com

☆ she/her

🌐 danateagle.com

## SUMMARY

- Driven and skilled developer with 3+ years of experience creating websites from conception to deployment, as well as doing testing and maintenance to meet web accessibility standards
- Expert in client relations and collaboration with 6+ years of prior management experience in the service industry
- Excellent and adaptable public speaker with experience communicating technically complex ideas through numerous community workshops and presentations

## EDUCATION

### Web Development Bootcamp Diploma (Cohort 44)

#### Juno College of Technology

📅 08/2022 - 11/2022 📍 Remote / Toronto, ON

- Graduated with an overall grade average of 91.4%
- Continue to volunteer as a peer mentor for current bootcamp students

## WORK EXPERIENCE

### Virtual Assistant / Web Designer

#### Dana Teagle, Virtual Assistance

📅 04/2020 - 08/2022 📍 Remote

- Designed and maintained websites, social media profiles, and email marketing systems for 15 self-employed and/or small businesses, establishing online brands, and increasing reach and conversion by as much as 60%
- Consulted clients on admin and design tools and educated them on how to use them self-sufficiently, thereby streamlining their workflow and enabling them to focus on and continue to grow their business

### Restaurant Manager

#### Bloomer's Bakery

📅 04/2018 - 03/2020 📍 Toronto, ON

- Managed a staff of 20+ front and back of house employees; responsibilities included liaising with owners and communicating feedback to my staff, tracking inventory and handling scheduling for the entire business, and ensuring the workforce ran smoothly during a time of ownership transition
- Assisted the owners with opening a second location and escalating wholesale production, which increased our revenue by 40% within a few months

## VOLUNTEER EXPERIENCE

### Peer Mentor

#### Juno College of Technology

📅 11/2022 - Present 📍 Remote

- Providing homework help and project feedback for 10+ web development bootcamp students

## SKILLS

React	JavaScript (ES6+)		TypeScript
Angular	jQuery	HTML5	CSS3
SASS	Adobe Photoshop		Figma

## PROJECTS

### Trans I.D. (React) [in development]

📅 11/2022 - Present

🌐 <https://trans-id.app/>

- This app uses the React concepts of state management and lifecycle to create a personalized guide for transgender and non-binary individuals changing their name and/or gender marker
- After conducting several Trans I.D. workshops, assisting individuals one-on-one, and consulting with the community, I identified the need for a free and accessible service; it will launch for Ontario in 2023, and expand to other provinces in the future

### Pigeon Pad (Angular / SASS)

📅 01/2023 - 02/2023

🌐 <https://pigeon-pad.netlify.app/>

- This notes app uses Angular's local storage API to save the inputted data and display preferences client-side, so they can leave and return to the site; notes are saved until their cache is cleared

### Superhero Showdown (React / CSS)

📅 10/2022 - 11/2022

🌐 <https://danateagle.com/superhero>

- This Marvel Comics-inspired statistics-based card game is a project I wireframed, developed, and extensively tested using the React library and CSS animations during the Juno Web Dev bootcamp
- I developed it as a single-page app that retrieves data stored in Firebase, shuffles and sorts the data objects, and uses state variables to track scores as the player advances through the game
